

**CONFERENCE COMMITTEE REPORT
DIGEST FOR ESB 501**

Citations Affected: IC 12-17.2-2-1.5; IC 20-9.1-1-4.5, IC 20-9.1-4, IC 20-9.1-5, IC 36-9-4-29.4.

Synopsis: Conference committee report for ESB 501. Transportation of children. Requires a person who transports children in the care of a child care center in a vehicle designed and constructed for the accommodation of more than 10 passengers to transport the children in a school bus or a special purpose bus. Requires the owner of a special purpose bus to present the special purpose bus for inspection at the time and place designated by the state police department. Defines a child care center so that the term does not include a child care home, a child care ministry, an unlicensed day care provider, or a residential child care institution. Permits the use of a public transportation system to transport children if the motor carriage used is designed to carry at least 20 passengers. Provides that a preschool operated by a school corporation, a public elementary school, a public secondary school, or a child care center is not prohibited from contracting with a common carrier for incidental charter bus service for non-regular transportation as long as the carrier and the carrier's motor coach complies with federal safety regulations. Provides that if before July 1, 2001, a person owns a vehicle other than a school bus or a special purpose bus that is used to transport school children, the vehicle may be used to transport children until June 30, 2006. (This conference committee report adds back the inclusion of child care centers that transport children in vehicles designed and constructed for more than 10 passengers and the definition of "child care center". It changes from 30 to 20 passengers the size of a public transportation carrier that may transport children and changes the date for use of nonconforming vehicles from June 30, 2007 to June 30, 2006. The report adds new language concerning presentation of special purpose buses for state police inspection and contracting with common carriers for incidental charter bus service for children.)

Effective: July 1, 2001.

17 the school bus out of service because of passenger safety concerns, the
18 school bus must be presented for an inspection under subsection (b)
19 before the school bus may be used to transport passengers. If the school
20 bus meets the requirements specified in subsection (c), the state police
21 department shall issue a new certificate of inspection for the school
