Second Regular Session 112th General Assembly (2002)

## **SENATE CONCURRENT RESOLUTION**

---

A CONCURRENT RESOLUTION urging the legislative council to refer the study of long-term care and community based alternatives to the Commission on Medicaid Oversight for review and approval.

Whereas, it should be a priority of the State to ensure that people can stay in their homes and under the care of their families until that is no longer a feasible option; and

Whereas, the State should consider a cost-effective Medicaid system that offers a wide array of long-term care choices; and

Whereas, barriers to home-care exist in state law and administrative rule; and

Whereas, family care-givers need the assistance of government for their medical, financial, and emotional support; and

Whereas, the nursing home industry may need incentives to develop alternatives to our current institutional care system; therefore:

Be it resolved by the Senate of the General Assembly  
of the State of Indiana, the House of Representatives concurring:

1           SECTION 1. That the legislative council is urged to direct the said  
2 committee to review and determine whether to approve the reformation  
3 of long-term care proposals created by the division of disability, aging,  
4 and rehabilitative services; the division of family and children; and the  
5 division of mental health and addiction.
