**FISCAL IMPACT STATEMENT**

**LS 6710**  
**BILL NUMBER:** HB 1191

**NOTE PREPARED:** Dec 29, 2002  
**BILL AMENDED:**

**SUBJECT:** ISTEP + diploma seal.

**FIRST AUTHOR:** Rep. Stilwell  
**FIRST SPONSOR:**

**BILL STATUS:** As Introduced

**FUNDS AFFECTED:**  **GENERAL**  
 **DEDICATED**  
 **FEDERAL**

**IMPACT:** State & Local

**Summary of Legislation:** The bill provides that a student is not required to pass the grade 10 ISTEP examination (the Examination) in order to graduate from high school. The bill provides for the placement of an ISTEP+ diploma seal on the high school diploma of a graduate who passes the grade 10 ISTEP examination. The bill provides that a student who does not pass the grade 10 ISTEP examination may be retested in any school year with the consent of the student's parent. The bill repeals references to the graduation examination and the obsolete grade 12 examination.

**Effective Date:** July 1, 2003.

**Explanation of State Expenditures:** *Summary:* The bill would remove the requirement that a student pass the Examination in order to graduate from high school and would allow a student to retest in any school year with the consent of the student's parents.

If students falling below the Indiana Academic Standard choose not to retake the Examination, a possible savings could occur with regard to administering the Examination, since a passing grade would no longer be necessary in order to graduate. However, students could continue to retest in order to receive the ISTEP+ diploma seal. Currently, tenth grade students have four additional opportunities to pass the Examination after their initial testing (two opportunities in both their eleventh and twelfth grade years.) The impact of this proposal on state expenditures is indeterminable.

***Background:*** ISTEP+ is Indiana's statewide student assessment program which is currently given in grades 3, 6, 8, and 10. ISTEP+ includes both norm- and criterion-referenced components, is administered in the fall, and is based upon proficiencies from the previous year.

The norm-referenced component of ISTEP+ compares a student's performance to the performance of a statistically representative sampling of U.S. students. The criterion component of ISTEP+ (which includes English/Language Arts and Mathematics subject areas) measures student performance against the Indiana Academic Standard (an expectation of student achievement developed by the State Standards Task Force).

Beginning with the graduating class of the 1999-2000 school year, students who expected to graduate with a diploma were required to either: 1) complete all high school graduation credit requirements in addition to receiving a score at or above the Indiana Academic Standard on the Examination; 2) successfully complete all components of the CORE 40 curriculum; or 3) successfully appeal the Examination test results in accordance with current law. A student who does not receive a score at or above the Indiana Academic Standard may retake the Examination during each semester of each grade following the grade in which the student is initially tested.

As of the fall 2002 testing session, approximately 60% of the current tenth grade class (graduating class of 2004-2005) received a score at or above the Indiana Academic Standard on the Examination. Last year, 58% of tenth graders of the 2003-2004 graduating class passed both portions of the Examination.

For FY 2003, \$40,174,677 were appropriated from the State General Fund and State Dedicated Funds for ISTEP+ testing and re-mediation (grades 3, 6, 8, and 10). Of this amount, approximately \$19 M were distributed to eligible school corporations for preventative and regular re-mediation and approximately \$20 M were distributed for test development and administration.

**Explanation of State Revenues:**

**Explanation of Local Expenditures:** *Summary:* This bill would require that seals be imprinted or affixed on the graduating student's regular high school diploma recognizing a passing score on the Examination (public and nonpublic high schools do not currently offer ISTEP+ seals to graduating students who receive a passing score on the Examination). This provision would likely result in an increase of administrative time. In addition, schools would likely experience a minimal cost relating to the purchase of an instrument to imprint the required seals, or to the purchase of the seals themselves.

The specific effects of this portion of the bill would vary across high schools and would depend upon local action.

**Explanation of Local Revenues:**

**State Agencies Affected:** Department of Education.

**Local Agencies Affected:** School corporations.
