FISCAL IMPACT STATEMENT

LS 7464

BILL NUMBER: HB 1493

NOTE PREPARED: Dec 31, 2004

BILL AMENDED:

SUBJECT: Reports for Mandated Benefit Legislation.

FIRST AUTHOR: Rep. Brown T

FIRST SPONSOR:

BILL STATUS: As Introduced

FUNDS AFFECTED: **GENERAL**
 DEDICATED
 FEDERAL

IMPACT: State

Summary of Legislation: The bill specifies that a legislative floor amendment, bill, or resolution that contains a mandated health insurance coverage benefit proposal may not receive final consideration unless the floor amendment, bill, or resolution is accompanied by a report containing certain information.

Effective Date: July 1, 2005.

Explanation of State Expenditures: Under current law, the Insurance Commissioner establishes a nine-member task force to review mandated benefits and mandated benefit proposals as determined by the task force. The members of the task force serve on a voluntary basis without reimbursement, and the Department of Insurance provides administrative support.

Under the bill, the task force would review mandated benefit proposals (amendments, bills, or resolutions pending before the General Assembly) prior to final consideration by a chamber or standing committee. Also, under the bill, the Department of Insurance would provide actuarial support for the functions of the task force.

Assuming that additional time would be required of the task force and administrative staff to review mandated benefit proposals, administrative costs would increase. Currently, the task force meets once a month, and the Department of Insurance provides an attorney on a part-time basis (20 hours a month) to administer the task force.

Additionally, the task force would be assigned actuarial support. Currently, the Department of Insurance does not employ actuaries. The additional cost for actuarial services would be depend on administrative actions.

The funds and resources required above could be supplied through a variety of sources, including the following: (1) existing staff and resources not currently being used to capacity; (2) existing staff and resources currently being used in another program; (3) authorized, but vacant, staff positions, including those positions that would need to be reclassified; (4) funds that, otherwise, would be reverted; or (5) new appropriations. As of December 20, 2004, there were 18 vacant positions in the Department of Insurance with combined salaries of approximately \$620,000. Ultimately, the source of funds and resources required to satisfy the requirements of this bill will depend upon legislative and administrative actions.
