FISCAL IMPACT STATEMENT

LS 6727

BILL NUMBER: HB 1376

NOTE PREPARED: Jan 14, 2006

BILL AMENDED:

SUBJECT: State Spending Cap.

FIRST AUTHOR:

FIRST SPONSOR:

BILL STATUS:

FUNDS AFFECTED: **GENERAL**
 DEDICATED
 FEDERAL

IMPACT: State & Local

Summary of Legislation: This bill provides a control on state expenditures based on the change in gross Indiana nonfarm personal income as reported by the United States Department of Commerce, Bureau of Economic Analysis. The bill requires the Budget Agency to determine and publish the Indiana nonfarm personal income growth quotient (the IPI growth quotient) in the Indiana Register. The bill provides for emergency expenditures and for mandatory reductions in expenditures. The digest of a budget bill or a conference committee report on a budget bill must contain certain information concerning state appropriations and expenditures. The bill also repeals the law concerning business cycle state spending controls.

Effective Date: July 1, 2006.

Explanation of State Expenditures: *Expenditure Limits:* The bill repeals the current state spending controls outlined in IC 4-10-21 which were established in P.L. 192-2002 (SS) and replaces them with a similar set of limits and requirements. The bill resets the base year to FY 2007 and will affect appropriations beginning with the FY 2008 - FY 2009 budget.

This bill requires the Budget Agency to determine the Indiana nonfarm personal income (IPI) growth index. The IPI growth index is defined as the cumulative growth in Indiana nonfarm personal income since the base year using the average annual change as reported by the U.S. Department of Commerce, Bureau of Economic Analysis. The Budget Agency is to publish this index in the Indiana Register not later than January 15 of each odd-numbered year and the historic IPI numbers in the Indiana Register not later than July 1 of each odd-numbered year. The Budget Agency shall also publish the maximum expenditure amounts in the Indiana Register not later than January 31 of each odd-numbered year. The bill also allows for an adjustment factor

to be calculated to compensate for the difference between the IPI growth quotient applied to the second fiscal year of the immediately preceding budget period and the actual IPI growth quotient for that same period which was unknown at the time. This adjustment would be used beginning in FY 2010.

Based on the December 14, 2005, state revenue forecast, Indiana IPI is expected to grow at 5.12% in FY 2006, and 5.92% in FY 2007.

The bill states that the General Assembly may not appropriate and Budget Agency may not allot more expenditures in a state fiscal year than the base year spending of the controlled state funds adjusted by the IPI growth. This bill defines controlled state funds as the General Fund, the Property Tax Replacement Fund, and the Counter-Cyclical Revenue and Economic Stabilization Fund.

The bill allows an increase in the spending cap, other than by the IPI index, if at least one of the following occurs: (1) a spending responsibility has shifted from another level of government to the state; (2) a spending responsibility has shifted from a fund not limited by this chapter to a limited fund; or (3) there has been an expansion of state services and state spending and a tax increase has been dedicated to these services. The increase in the spending cap requires approval of a two-thirds majority of both the House and Senate.

The bill also sets out procedures for the reduction of the state spending cap under certain conditions.

This bill affects appropriations and allotments for fiscal years beginning FY 2008. The impact of state spending is indeterminable and subject to legislative, executive, and judicial actions.

Budget Bill Requirements: This bill requires that the digest of the conference committee report on the budget bill contain the following information: (1) the total amount of appropriations from controlled state funds; (2) the total amount of appropriations for expenditures subject to general expenditure controls; and (3) the expenditure limit for controlled state funds. This requirement would first apply for the budget bill considered during the 2007 General Assembly.

Explanation of State Revenues:

Explanation of Local Expenditures: Distribution of state revenue to local units of government are dependent on the disposition of state appropriations.

Explanation of Local Revenues:

State Agencies Affected: All; State Budget Agency, General Assembly.

Local Agencies Affected: All.
