Summary of Legislation: This bill provides a cost-of-living adjustment (COLA) for certain members, survivors, and beneficiaries of the State Teachers' Retirement Fund (TRF) in 2008.

Effective Date: July 1, 2007.

Explanation of State Expenditures: This bill provides a one-time permanent COLA adjustment to eligible retired members of TRF effective January 1, 2008. The amount of the COLA as a percent of the pension portion (excluding the annuity) of a member's total benefit (including past post-retirement increases) is as follows:

- 2.0% for members retired before July 2, 1999.
- 1.0% for members retired after July 1, 1999 and before July 2, 2005.
- 0% for members retired after July 1, 2005.

The increase in the present value of benefits from the COLA provided in this bill totals \$67.6 M (\$65.3 M for the Pre-1996 Fund and \$2.3 M for the 1996 Fund).

Increase in Present Value of Future Benefits (PVB) from COLA.			
	LS 6324 COLA (2%/1% on 1/1/2008)	Amount Recognized in Valuation (1% on 1/1/2008)	Net Increase
Pre-1996 Fund	\$65,348,822	\$41,927,172	\$23,421,650
1996 Fund	\$ 2,281,210	\$ 2,014,878	\$ 266,332

The increases in the present value of benefits are shown in column 2 of the table above. This represents the total fiscal impact attributable to the bill.

The June 30, 2006, valuation includes an assumed 1% annual compound COLA in accordance with IC 21-6.1-2-5. The third column in the table above shows the estimated increase in the present value of future benefits resulting from this 1% COLA assumption, and the final column shows the net increase in the present value of future benefits over the assumed 1% COLA that would be shown in the June 30, 2006, valuation upon passage of this bill.

[According to IC 21-6.1-2-5, “*The actuarial investigation and the board shall include in the determination of the liability, contribution rate, and appropriation the amount necessary to fully fund any past and estimated future cost of living increases for members of the pre-1996 account and the 1996 account, amortized over thirty (30) years. The actuary shall consult with the budget agency in making this determination.*”]

The increases in projected benefit payments through FY 2010 are shown below and represent the difference between the projected benefit payments with the proposed COLA and the projected benefit with no COLA. This table should be compared with the column 2 in the table above.
