 DEDICATED
 FEDERAL

IMPACT: State & Local

Summary of Legislation: (Amended) This bill has the following provisions:

- A. *Jury Trial and Sentence Enhancement* – It provides that a person who, while committing or attempting to commit murder or felony murder, causes the termination of a human pregnancy may be sentenced to an additional term of imprisonment of 6 to 20 years.
- B. *Enhanced Penalty for Feticide* – It increases the penalty for feticide from a Class C felony to a Class B felony.

Effective Date: July 1, 2009.

Explanation of State Expenditures: *Jury Trial and Sentence Enhancement* – Under current law, a person can be sentenced for felony murder for knowingly or intentionally killing a fetus *that has attained viability*. (IC 35-42-1-1(4)). As proposed, this bill would allow a defendant to be sentenced for an additional term of between 6 and 20 years if the defendant has been convicted of terminating a human pregnancy if the person has also been convicted of committing or attempting to commit murder under certain circumstances.

Enhanced Penalty for Feticide – The following table shows the added number of years that an offender could serve for committing feticide if the penalty is increased from a Class C to a Class B felony.

Felony Class	Minimum	Advisory	Maximum
B	6 years	10 years	20 years
C	2 years	4 years	8 years

The average expenditure to house an adult offender was \$20,287 in FY 2008. (This does not include the cost of new construction.) If offenders can be housed in existing facilities with no additional staff, the marginal cost for medical care, food, and clothing is approximately \$1,825 annually, or \$5 daily, per prisoner. The estimated average cost of housing a juvenile in a state juvenile facility was \$69,223.
