MR. SPEAKER:

I move that House Bill 1001 be amended to read as follows:

Page 110, between lines 34 and 35, begin a new paragraph and insert:

"SECTION 69. IC 20-16-11-31 IS ADDED TO THE INDIANA CODE AS A NEW SECTION TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2009 (RETOACTIVE)]: Sec. 31. (a) This section applies when a transferring student transfers from a school corporation or charter school to another school corporation or charter school after a count date used to determine current ADM for the immediately succeeding calendar year. 

(b) The following definitions apply throughout this section:

(1) "Count date" refers the initial ADM count in a school year determined under IC 20-43-4-3 that is used to compute state tuition support distributions to a school corporation or charter school in the immediately following calendar year. However, for the purposes of a grant for students enrolled in programs for children with disabilities that is based on a later count under IC 20-43-4-4, the term includes the adjusted count of students enrolled in programs for children with disabilities.

(2) "Current ADM" has the meaning set forth in IC 20-43-1-10.

(c) After the date specified in subsection (d), a transferring student described in subsection (a) shall be counted in the current ADM of the school corporation or charter school to which the
student transfers to the same extent as if the student were enrolled
in the school corporation or charter school on the count date. After
the date specified in subsection (d), the current ADM of the school
corporation or charter school from which the student transferred
shall be reduced to reflect the transfer of the student.

(d) A school corporation or charter school is entitled to a state
tuition support distribution related to a change in current ADM
described in subsection (c) only for that part of the state tuition
support for a calendar year that is distributed in an installment
after the month in which a student transfers.

(e) The state tuition support distributed to a school corporation
or charter school from which a student described in subsection (a)
transfers shall be reduced only for that part of the state tuition
support for a calendar year that is distributed in an installment
after the month in which a student transfers.

(f) To qualify for an increase in the current ADM under this
section, a school corporation or charter school must notify the
department on the schedule and in the form prescribed by the
department.

(g) When a transferring student is included in the current ADM
of another school corporation or charter school under this section,
the department shall send a copy of a notice of proposed
distribution change to the school corporation or charter school
where the student was enrolled on the count date. The school
corporation or charter school may appeal the reduction in state
tuition support distribution within thirty (30) days after receiving
a notice of proposed distribution change. The only grounds of
appeal are that:

(1) the student was not enrolled in the school corporation or
charter school on the count date and was not counted in the
current ADM of the school corporation or charter school; or
(2) the student is enrolled in the school corporation or charter
school on the date of the appeal and has not transferred to
another school corporation or charter school."

Renumber all SECTIONS consecutively.

(Reference is to HB 1001 as printed February 17, 2009.)
