Summary of Legislation: This bill makes certain changes to the public purchasing law governing purchases for persons with severe disabilities.

Effective Date: Upon passage.

Explanation of State Expenditures: This bill will increase the workload of the Committee for the Purchase of Products and Services of Persons with Severe Disabilities to provide written notice to the Family and Social Services Administration (FSSA) and the Division of Disability and Rehabilitative Services of government bodies that violate provisions of current law governing the purchasing of products and services of persons with severe disabilities.

Additionally, the bill allows purchase orders of state agencies to be voided if the purchasing agency fails to comply with certain conditions specified in current law governing purchases from qualified nonprofit agencies for persons with severe disabilities. This may increase the workload of any state agency that has a purchase order voided to secure a new purchase order that meets the regulations governing purchases from qualified nonprofit agencies for persons with severe disabilities.
