Synopsis: Funeral planning. Establishes a statutory form for a funeral planning declaration that allows a person to provide instructions concerning the person's funeral arrangements. Provides that the declaration may be used to designate an individual who will make arrangements after the person's death. Provides that a person designated in a funeral planning declaration is first in the priority and that a person designated in a health care power of attorney is second in the priority of individuals who can authorize the cremation of another person's remains and who may authorize the owner of a cemetery to inter, entomb, or inurn the body or cremated remains of a deceased human. Specifies that a person acting as the attorney in fact under a health care power of attorney has the power to execute a funeral planning declaration on behalf of the principal. Provides that a person who relies in good faith on a funeral planning declaration is immune from liability to the same extent as if the person had dealt directly with the declarant and the declarant had been a competent and living person.

Effective: July 1, 2009.
